

Breeze SleepGear™ with Nasal Pillows

Description

Puritan Bennett's innovative *Breeze™ SleepGear™* Nasal Interface System allows CPAP patients to easily switch between Nasal Pillows and the *DreamSeal®* Mask. *Breeze SleepGear* provides the comfort of a custom fit, with multiple adjustments and size options to choose from. Unlike traditional headgear and masks, there are no confining straps to contend with. The integrated one-piece design floats over the face and contours the head. The *DreamSeal* and Nasal Pillows assemblies quickly snap in and out of the interface.

Product Features

- Interchangeable Nasal Pillows or *DreamSeal* Mask Assembly.
- Easy, adjustable fit.
- *DreamSeal* floats over nose as airway is pressurized.
- No complicated or confining straps on the face.
- 7 sizes of Nasal Pillows.
- Compatible with all Puritan Bennett® sleep therapy systems.

Departmental Usage

- Home Care
- Respiratory Care
- Sleep Lab
- Subacute Care
